3. Press and hold the desired key on the teaching remote until the mode key blinks twice.
Press and hold the desired key until the mode key blinks twice.

Position remotes 1-2 inches apart.

MUSTA Z250-2_A6
PROGRAMMING YOUR PBTV REMOTE FOR POWER & VOLUME

START WITH TV TURNED ON

CODE SEARCH METHOD

Press and hold the TV button. While holding it, press the OK key for one second.

Release both keys and all the mode keys will flash, then the selected mode key (TV) will stay lit.

Press the POWER button repeatedly until the TV set turns off. Once the TV has turned off, press OK to save the code.

The TV light will go out to indicate a successful setup.

IF THE VOLUME WORKS, DO THE FOLLOWING STEPS:

LOCK THE VOLUME METHOD

Press and hold the TV button. While holding it, press the OK key for one second.

Release both keys and all the mode keys will flash, then the selected mode key (TV) will stay lit.

Press and hold the MUTE key until the TV light turns off and remains on.

Press and release the TV button (it will remain lit when released)

Press and release the MUTE button to store setting.
Motorola Advanced Series
MX3 Remote Control

Battery Installation
1. On the back of the remote, push down on the tab and lift the battery cover to remove.
2. Match the batteries to the + and – terminals as shown or insert twice.
3. Press the battery cover back into place.

Programming the remote to control other devices
The remote control will only control the device which is selected by the appropriate mode key (STB, TV, DVD, and AUX). The mode key light for the selected mode will stay on and the other mode keys will flash and then turn off. The selected mode key light will stay on.

A. Manual Programming

1. Press and hold the TV key and while holding it pressed, press the OK key for 1 second. The deviceshould turn off. If the device stayed on, repeat the steps 2 thru 5 trying each code for your brand until you find the correct code.
2. Release both keys, all of themode keys will flash followed by the TV mode key light remaining on.
3. Press and hold the LEARN key to save the setting. The selected mode key light will turn off indicating a successful setup. The channel control commands will now work for different devices.

B. Using the Search Function

1. Turn on the device you want to control and point the remote at that device.
2. Press and hold the mode key (TV, DVD, or AUX) and while holding it pressed, press the OK key for one second.
3. Release both keys, all of the mode keys will flash then the selected mode key light will stay on.
4. Press the power button repetitively until the selected device turns off. Once the device has turned off, press OK to save the code.

C. Learning

If the code for your device is not found in the code list and the search function was not able to find a code for the device, then learning your remote control may be your best option. The learning function lets you “learn” functions from your original remote control.

Learning cannot be performed for any mode until the selected mode key light is on.

1. Press and hold the TV key and while holding it pressed, press the OK key for 1 second. The deviceshould turn off. If the device stayed on, repeat the steps 2 thru 5 trying each code for the selected mode, then follow the steps below.

D. Learning Commands

1. Press and hold the mode key (TV, DVD, or AUX) and while holding it pressed, press the LEARN key for one second. The deviceshould turn off. If the device stayed on, repeat the steps 2 thru 5 trying each code for the selected mode.
2. All the mode keys will flash and the selected mode key light will stay on.
3. Press and release the LEARN key once. The mode key light will flash off.
4. Press and release the DELETE key. The mode key light turns off.

So to learn a function:
1. Press and hold the mode key (TV, DVD, or AUX) and while holding it pressed, press the LEARN key for one second. The deviceshould turn off. If the device stayed on, repeat the steps 2 thru 5 trying each code for the selected mode.
2. All the mode keys will flash and the selected mode key light will stay on.
3. Press and release the LEARN key once. The mode key light will flash off.

Note: If a programmed mode key has no volume commands of its own, then the volume control will normally operate the TV. If an installed volume control key is programmed, then the mode key light flashes for 3 seconds which turns off. The remote control returns to normal operation and you can stop at this point. If no key is pressed within 30 seconds, the remote control turns off and the remote control returns to normal operation in 30 seconds. If you want to change this, you should follow the steps in Section F 1.

E. Volume Control Setup

The volume controls will work your Set Top Box until the TV device mode is programmed. If no volume control setup is selected then volume controls are turned off.

1. Press and hold the mode key for 1 second. The volume control will work your Set Top Box. If you want to change this, you should follow the steps in Section F 1.

F. Channel Control Setup Options

The channel controls (Channel Up/Down, 6-9 and LAST) will only work your Set Top Box. If you like your channel controls to be sent to different devices depending which mode you are in, then follow the instructions in Section F 1.

G. Mode Deactivation

If you’d like to deactivate a device mode, then follow the instructions below:

1. Press and hold the mode key to be deactivated, (TV, DVD, or AUX) and while holding it pressed, press the OK key for one second.
2. Release both keys, all of the mode keys will flash followed by the selected mode key light flashes for 3 seconds and then turn off.
3. The remote control returns to normal operation and you can stop at this point. If no key is pressed within 30 seconds, the remote control turns off and the remote control returns to normal operation in 30 seconds. If you want to change this, you should follow the steps in Section F 1.

H. Multiple Device Power Control Setup Options

After pressing the STB key, while setting it on or off, and turning on or off the TV it has been setup. Press the TV key to turn on other devices at the same time you can enable these:

Press and hold the DELETe key for 3 seconds until the TV mode key light stays on. The remote control is now ready to power on other devices. Power on the first device you want to use the remote commands (STB, TV, DVD, and AUX) and select the same device.

1. Press and hold the KEY LOCK key for 1 second until the TV device mode is programmed, e.g. if DVD mode is selected then volume controls your STB. If TV mode is programmed and DVD mode is selected then volume controls your TV.

I. Channel Control Setup Options

The channel controls (Channel Up/Down, 6-9 and LAST) will only work your Set Top Box. If you like your channel controls to be sent to different devices depending which mode you are in, then follow the instructions in Section F 1.

J. Backlight Cancellation Feature

You may have three options for your remote control: backlight on, backlight off, or backlight when power button is pressed. If you have the backlight on option, then follow the instructions below:

1. Press and hold the TV key and while holding it pressed, press the OK key for 1 second and turn off the backlight.
2. Release both keys, all of the mode keys will flash followed by the TV mode key light remaining on.
3. Press and hold the MUTE key for one second.
4. Press and release the MUTE key. The selected mode key light will turn off.
5. Press and release the LAST key for one second. Then release both keys. You are now in setup mode.
6. Press and release the LEARN key to save the setting. The selected mode key light will turn off indicating a successful setup. The channel control commands will now work for different devices.
7. Press and release the DELETE key to clear all commands.
8. Repeat the steps on the previous page to setup another device. To use the remote control for your Set Top Box, press the STB key and while holding it pressed, press the OK key for one second.

K. Troubleshooting Learning

If problems resurface with the LEARN key setup, please refer to Section K: Troubleshooting Learning. Does it power on your original remote's VCR or DVD transport keys unless you're sure these operate the device.

1. Press and hold the key for one second and then release both keys at the same time.
2. All the mode keys will flash, then the selected mode key light will stay on.
3. Press and hold the OK key for 1 second and then release both keys.
4. Release the OK key. If the LEARN key setup is successful, the mode key light turns off indicating successful setup. The channel control commands will now work for different devices.

To remove a mode from the Power key:

1. Press and hold the TV key and while holding it pressed, press the OK key for 1 second until the TV device mode is programmed, e.g. if DVD mode is selected then volume controls your STB. If TV mode is programmed and DVD mode is selected then volume controls your TV.

L. Channel Always Controls Same Device

Press and hold the mode key (TV, DVD, or AUX) and while holding it pressed, press the OK key for one second.

M. Backlight Clear

Press and hold the OK key for one second. The backlight will no longer turn on.

N. Channel Option

The channel always controls the same device and press the power key once. The deviceshould turn off. If the device stayed on, repeat the steps 2 thru 5 trying each code for your brand until you find the correct code.

O. Clear

Press and release the DELETE key. The mode key light turns off.

P. Volume Option

Press and hold the MUTE key for 3 seconds which turns off. The remote control returns to normal operation and you can stop at this point. If no key is pressed within 30 seconds, the remote control turns off and the remote control returns to normal operation in 30 seconds. If you want to change this, you should follow the steps in Section F 1.

Q. Channel Control

The channel controls (Channel Up/Down, 6-9 and LAST) will only work your Set Top Box. If you like your channel controls to be sent to different devices depending which mode you are in, then follow the instructions in Section F 1.

R. Volume Control

The volume controls will work your Set Top Box until the TV device mode is programmed. If no volume control setup is selected then volume controls are turned off.

S. Mode Deactivation

If you’d like to deactivate a device mode, then follow the instructions below:

1. Press and hold the mode key to be deactivated, (TV, DVD, or AUX) and while holding it pressed, press the OK key for one second.
2. Release both keys, all of the mode keys will flash followed by the selected mode key light flashes for 3 seconds and then turn off.
3. The remote control returns to normal operation and you can stop at this point. If no key is pressed within 30 seconds, the remote control turns off and the remote control returns to normal operation in 30 seconds. If you want to change this, you should follow the steps in Section F 1.

T. Channel Control

The channel controls (Channel Up/Down, 6-9 and LAST) will only work your Set Top Box. If you like your channel controls to be sent to different devices depending which mode you are in, then follow the instructions in Section F 1.

U. Volume Control

The volume controls will work your Set Top Box until the TV device mode is programmed. If no volume control setup is selected then volume controls are turned off.

V. Mode Deactivation

If you’d like to deactivate a device mode, then follow the instructions below:

1. Press and hold the mode key to be deactivated, (TV, DVD, or AUX) and while holding it pressed, press the OK key for one second.
2. Release both keys, all of the mode keys will flash followed by the selected mode key light flashes for 3 seconds and then turn off.
3. The remote control returns to normal operation and you can stop at this point. If no key is pressed within 30 seconds, the remote control turns off and the remote control returns to normal operation in 30 seconds. If you want to change this, you should follow the steps in Section F 1.

W. Channel Control

The channel controls (Channel Up/Down, 6-9 and LAST) will only work your Set Top Box. If you like your channel controls to be sent to different devices depending which mode you are in, then follow the instructions in Section F 1.

X. Volume Control

The volume controls will work your Set Top Box until the TV device mode is programmed. If no volume control setup is selected then volume controls are turned off.

Y. Mode Deactivation

If you’d like to deactivate a device mode, then follow the instructions below:

1. Press and hold the mode key to be deactivated, (TV, DVD, or AUX) and while holding it pressed, press the OK key for one second.
2. Release both keys, all of the mode keys will flash followed by the selected mode key light flashes for 3 seconds and then turn off.
3. The remote control returns to normal operation and you can stop at this point. If no key is pressed within 30 seconds, the remote control turns off and the remote control returns to normal operation in 30 seconds. If you want to change this, you should follow the steps in Section F 1.

Z. Channel Control

The channel controls (Channel Up/Down, 6-9 and LAST) will only work your Set Top Box. If you like your channel controls to be sent to different devices depending which mode you are in, then follow the instructions in Section F 1.

Getting Started
Primeros Pasos

1 Remove battery cover.
Retire la tapa del compartimiento de pilas.

2 Insert 2 AA batteries. Match the + and – marks.
Coloque 2 pilas AA. Haga coincidir las marcas “+” y “-”.

3 Replace battery cover.
Vuelva a colocar la tapa del compartimiento de pilas.

Tip/Consejo:
The Mode Key will blink 5 times with each key-press when batteries need replacement. La tecla de Modo parpadeará 5 veces con cada pulsación de tecla cuando sea necesario reemplazar las pilas.

Tip/Consejo:
If your brand does not appear in the brand chart, perform setup using either DIRECT CODE ENTRY or CODE SEARCH. Si la marca que utiliza no aparece en la tabla de marcas, realice la configuración utilizando ya sea ENTRADA DIRECTA DE CÓDIGO O BÚSQUEDA DE CÓDIGO.

Note/Nota:
Make sure all home theater equipment is ON before starting remote control setup. Asegúrese de que todo el equipo de cine en casa (home theater) esté ENCENDIDO (ON) antes de comenzar la configuración del control remoto.

PROGRAMMING YOUR PBTV REMOTE FOR POWER & VOLUME

START WITH TV TURNED ON

CODE SEARCH METHOD

- The following steps need to be done in quick succession.
- Press and release the TV button.
- Press and hold the RCU SETUP button until the TV button blinks twice.
- Enter in 9-9-1.
- Press and release the CH+ or CH- button until the TV shuts off. When you are doing the CH+ or CH-, you must do it slow enough to react when your TV shuts off. Be patient, you may have to hit CH+ or CH- up to 300 times.
- Press the RCU SETUP button to store the code for the TV. The TV button will blink twice. The remote is now ready to operate the TV.
- Test the power and volume

LOCK POWER BUTTON FOR TV

- The following steps need to be done in quick succession.
- Press the STB button.
- Press and hold the RCU SETUP button until the LED button blinks twice.
- Enter in 9-9-5.
- Press the POWER button.
- Press the TV button.
- Press and hold the RCU SETUP button until the TV button blinks twice. Nothing happens to the TV during this process.
- Press the TV button.
- Press the STB button.
