

Quick Start Guide:

Setting up your Wi-Fi and App

- 1 Download the app.
You can search either the Apple App Store or Google Play Store for "GigaZone", then install it on your mobile device.

- 2 Select "SIGN UP" towards the bottom of the screen.

The login screen features the GIGAZONE logo and a house icon. Below the logo is a "Login" button. The form includes fields for "Email Address", "Password", and "Location" (with a dropdown menu set to "USA"). There is a "Forgot Password?" link and a "SUBMIT" button at the bottom.

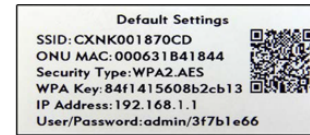

- 3 Enter your personal information.
The password you enter here will be used to access the app.

The registration screen is titled "Registration" and features the GIGAZONE logo and a house icon. It has input fields for "First Name", "Last Name", and "Email Id". Below these are fields for "Enter the new Password" and "Confirm the Password", each with a visibility toggle. A "SUBMIT" button is at the bottom.

Note: Please wait at least 10 minutes after your GigaSpire has been 'turned up' before attempting step 4.

- 4 Tap the QR code that appears within the app. (You will be asked to allow the app to access your camera.)

Point your camera at the QR Code found on the bottom of your GigaSpire, or on the sticker that came in your box (example shown below).

The "Router - Configuration" screen features the GIGAZONE logo and a house icon. It prompts the user to "Please Enter/Scan MAC & Serial number or Scan QR code" and offers to "Configure with QR Code" with a QR code. Below, it asks to "Enter the router details below" with fields for "MAC Address" and "Serial Number". A "SUBMIT" button is at the bottom.

- 5 Select OK.

- 6 Name your network and create a password

- The Router Name will be used throughout the app.
- The Network Name (SSID) is what you will use as your wireless connection name.
- Select a password for your wireless network. If you do not want to change it on all the devices in your home, use your existing wireless SSID and Password from your current router.

The "Network Details" screen features the GIGAZONE logo and a house icon. It has a "Router Name" field with "Robert's Router" entered. Below is a "Network Name (SSID)" field with a dropdown menu set to "AES". There are fields for "Wi-Fi Password" and "Confirm Password", each with a visibility toggle. A "SUBMIT" button is at the bottom.

Getting started with the App

The App allows you to manage your home or small business Wi-Fi network. You can self-install and be managing your home or business within a few minutes. Download the app and start managing your home network today!

Next: Refer to the GigaZone FAQ for details on how to use specific features.
